

Poynting HELI-6, Directional, Circular-Polarised Tunnel, 4G/LoRa antenna; 698 to 960 MHz

SKU: ANT-PY-00009

MPN: A-HELI-0006-V1-01

Description

The Poynting HELI-6 is a high-performance directional, circular-polarised helical antenna ideal for 4G/LoRa applications. Operating within the 698 to 960 MHz frequency range, this antenna ensures robust connectivity for GSM, M2M, and digital television systems. Its left-hand circular polarisation enhances signal reception in challenging environments, making it ideal for tunnel and other demanding installations.

With a peak gain of 13.5 dBi and a VSWR of less than 2.0:1, the HELI-6 delivers excellent RF performance. It features a single N Female connector, directly mounted on the antenna, providing streamlined installation. The antenna is constructed from durable polyvinyl chloride (PVC), ensuring reliability in harsh conditions, as indicated by its IP65 rating and ability to operate between -40 °C and 70 °C.

Compliant with CE and RoHS standards and tested to meet MIL-STD-810 environmental durability, the HELI-6 is built for longevity and...
