Description

The Poynting OMNI-904 is an advanced omni-directional, high-gain antenna designed for seamless 4G and 5G connectivity, covering frequencies from 617 to 4200 MHz. Ideal for applications requiring reliable wireless high-speed data transmission, this 2x2 MIMO antenna supports diverse needs, including residential 4G LTE, GSM, M2M, DTV, and customer premise equipment.

Engineered by Poynting, a global leader in antenna technology based in South Africa, the OMNI-904 combines innovative design with robust performance. Its versatile frequency range ensures compatibility with various communication standards, making it suitable for consumer, broadcast, and telecommunications markets. The antenna's durable construction allows it to function effectively across a wide temperature range, ensuring consistent performance in diverse environmental conditions.

Poynting's commitment to quality and innovation is evident in the OMNI-904, which is manufactured...
