Description

The Peplink Mobility 20G (Puma 201) is a versatile antenna system designed to enhance connectivity in demanding environments. Equipped with dual LTE/5G capability and GPS, it is ideal for applications requiring robust and reliable wireless communication, such as public safety, mobile healthcare, and transportation connectivity. Operating across a wide frequency range of 600-6000 MHz, this antenna supports multiple frequency bands, ensuring seamless integration with modern cellular networks.

Its 2x2 MIMO configuration enhances data throughput and stability, making it suitable for high-speed data applications. The antenna's IP68 rating ensures it is dust-tight and waterproof, capable of withstanding harsh environmental conditions, ranging from -40 °C to 80 °C. This durability makes it perfect for outdoor installations on vehicles or remote locations where exposure to elements is a concern.

With a simple SMA connector interface, the Peplink...
