Victron Solar Panel 115W-12V Mono 1030x668x30mm series 4b

SKU
ENG-VT-00062
MPN
SPM041151202

Description

The Victron Solar Panel 115W-12V Mono is a high-efficiency energy solution designed for various off-grid applications. With its 115-watt output and 36 monocrystalline cells, this panel is ideal for installations where reliable and consistent power generation is crucial, such as in remote areas, cabins, or boats. Its compact size of 1030 x 668 x 30 mm and lightweight build at 5.8 kg make it easy to install in both fixed and mobile setups.

This solar panel is engineered to perform in extreme temperatures, ranging from -40 °C to 85 °C, making it suitable for diverse environmental conditions. Its maximum power point of 19.4 V at 5.93 A ensures optimal energy conversion, while the open circuit voltage of 23.7 V and short circuit current of 6.21 A highlight its robust design.

Equipped with MC4 connectors, the panel offers straightforward integration into existing systems. Its advanced temperature coefficients enhance efficiency and longevity...

Victron Energy

Victron Energy is a Dutch company specialized in the design and manufacture of products for battery-based energy systems. Since 1975, Victron Energy has grown from a one-office technology startup to become an international enterprise with nearly 1,000 different products sold worldwide. In the off-grid sector, we offer reliable and innovative solutions from solar home systems to mini-grids. Our ...
