Victron Solar Panel 360W-24V Mono 1956x992x40mm series 4a

SKU
ENG-VT-00064
MPN
SPM043602402

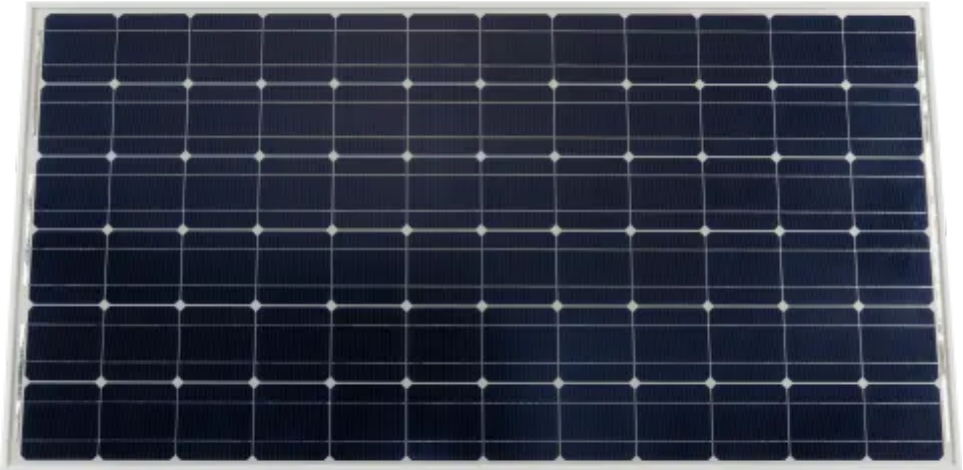

Description

The Victron Solar Panel 360W-24V Mono is a high-efficiency monocrystalline solar panel designed for various solar energy applications, particularly in off-grid systems. Its power output of 360 watts makes it suitable for residential and commercial installations, providing reliable energy for battery charging, standalone solar systems, and mini-grid applications. With 72 cells in series, this solar panel efficiently converts sunlight into electrical energy, supporting a wide range of power needs.

The panel is engineered to withstand extreme conditions, operating effectively in temperatures ranging from -40°C to 85°C. Its robust construction includes a sealed, waterproof junction box and a durable anodised aluminium frame. These features ensure high performance and longevity, even in harsh weather conditions, making it ideal for remote and exposed locations.

The panel's electrical characteristics include a maximum power point at 38.4V and 9...

Victron Energy

Victron Energy is a Dutch company specialized in the design and manufacture of products for battery-based energy systems. Since 1975, Victron Energy has grown from a one-office technology startup to become an international enterprise with nearly 1,000 different products sold worldwide. In the off-grid sector, we offer reliable and innovative solutions from solar home systems to mini-grids. Our ...
