

# GC76 Series Galvanised Steel Headframe, 2-Sector

SKU: MAS-BH-00327

MPN: AP-GC76-HF2

## Description

APAC's Socket Mounted Two-Sector Headframe is a durable galvanised steel mast head that is attached by its central tube slipping over the GC76 mast spigot and securing in place using M10 set screws.

Each 900 mm vertical mount is constructed from 48 mm diameter CHS steel and secured to a centre column via a 48 mm diameter tube to provide a high degree of rigidity and minimal deflection/torquing.

The two vertical mounts are separated approximately 800 mm (pipe centre to centre), with a total width of 848 mm.
