

Telegartner 4.3-10 Protective Cap for Male Connectors, IP68, with Chain

SKU: ACC-TG-00049 MPN: 100021295

Description

This item is a protective cap that has been specifically designed to suit 4.3-10 Male RF connectors. Its primary function is to provide protective coverage, ensuring the longevity and optimal performance of the connectors. It is expertly manufactured in Germany by Telegärtner.

The cap features an externally threaded Female body that is designed to screw into the corresponding 4.3-10 Male connector. The interfacing is IP68 protected when mated. The cap also has a metal chain that can be secured to the equipment to be protected.

The Telegärtner 4.3-10 Protective Cap for Male Connectors (SKU: ACC-TG-00049, Part Number: 100021295) ensures the durability and optimal performance of 4.3-10 Male RF connectors. Designed and manufactured in Germany, this cap provides robust protection with its IP68-rated, externally threaded female body, which securely mates with the corresponding connector. The cap includes a durable metal chain, allowing it to be easily attached to equipment, preventing loss and ensuring readiness for use
