

Reducer Module for AL340 Aluminium Lattice Towers

MPN: AP-AL340-RED

Description

The Reducer Module is required to attach AL340 aluminium lattice tower modules onto a single clevis base. It is a necessary component to construct guyed lattice towers up to the maximum height for the AL340 series.

The Reducer Module interfaces with the AL220/AL340 Series' Billet Base Plate. The Reducer Module has a Clevis-Eye which slots into the Billet Base Plate's Clevis-Fork.

Physical Specification

| | | | |
|-------------|--------------------|-----------|--------------------------|
| Subtype: | Interface Bracket | Mounting: | AL220/Reducer Clevis-Eye |
| Dimensions: | 408 x 408 x 470 mm | | |

Available Interfaces

| Quantity | Mounting | Details |
|----------|--------------------|-----------------------------|
| 1 | AL340 Bolt Pattern | For attaching AL340 Modules |

Subcomponents

| Quantity | APAC Infrastructure Name | Materials | Material Finish |
|----------|--|--------------------------------------|-----------------------|
| 1 | Fully Welded Assembly, 12 mm Flat Bar, 76.2 mm Round Rod | Aluminium 6005-T5, Aluminium 6061-T6 | Bright/Pickled Finish |

APAC develops made-to-measure height systems for ... industrial, and defence sectors. Our team is committed to evolving our solutions to meet the rapidly changing needs of our rapidly changing world, ensuring your team deliver solutions at the very forefront of technological development.
