# Cambium C050067B006B PTP 670 Connectorised ODU (ROW)

SKU: WIF-CB-00058 MPN: C050067B006B

### Description

Cambium's PTP 670 is the company's flagship 5 GHz point-topoint microwave radio capable of providing data throughputs up to 450 Mb/s.

The Connectorised PTP 670 finds it's place within Cambium's portfolio as the go-to unit for extreme long distance connectivity. Two N Female connectors provide connectivity to a range of 5 GHz high gain parabolic dish antennas up to 1.8 metres, to suit the required link distance. With HCMP the unit can be connected to a sector antenna to provide extremely high reliability multipoint connections for up to 8 remote nodes.

The unit can be set to use any channel size between 5 to 45 MHz within 4.9 to 6.05 GHz to achieve up to 452.2 Mb/s of L2 throughput using modulation up to 256QAM @ 0.81 CR with two spatial streams.

Dynamic Channel Selection (DCS) means the radio continually searches for the cleanest channels and moves band seamlessly, maximising performance and reliability.
