

AL340 Hinged Base Plate Adapter for S600

SKU: MAS-BH-00105

MPN: AP-AL340-HBP-S600

Description

The AP-AL340-HBP-S600 is an interface bracket that allows an AL340 Base Module to attach to a Surefoot S600 pile cap. The Base Module and Hinging Base Plate are used together so that AL340 towers can be built on the ground and safely raised upright.

The Hinging Base Plate operates in only one axis, preventing the tower from leaning sideways during erection, ensuring the tower can be raised either by hand or with minimal lifting equipment. The bolt pattern permits placement at multiple angles.

It is required to construct AL340 aluminium lattice towers that are to be installed in the ground using the S600. It has three clevis-forks that accepts the three clevis-eyes present on AL340 base modules. A Class 8.8 M12 Bolt and Nyloc is used as a pin to secure each of the two clevis components. Thanks to the precision machining, the structural load is directed through the billet-formed clevis rather than the bolt. This design strategy ...

[Read More](#)

The Hinged Base Plate is most commonly used with AL340 freestanding towers up to 6 metres and guyed towers up to about 12 metres. For towers beyond this height the AL340 Reducer and Billet base should be used.

APAC Infrastructure

APAC Infrastructure is an Australian metal fabrication company dedicated to high tech industries in the commercial, industrial, and defence sectors. Our team is committed to evolving our solutions to meet the rapidly changing needs of our rapidly changing world, ensuring your team deliver solutions at the very forefront of technological development. APAC develops made-to-measure height systems for ...

Physical Specification

Subtype:	Interface Bracket	Mounting:	S600 Bolt Pattern
Dimensions:	490 × 365 × 115 mm		

Available Interfaces

Quantity	Mounting	Details
1	AL340 Clevis-Fork Pattern	For receiving AL340 Base Modules

Subcomponents

Quantity	Name	Materials	Material Finish
1	12 mm Flat Bar Base with 12 mm Flat Bar Forks	Stainless Steel 304, Flat Bar	Mill Finish
