

PTL-240 Coaxial Cable SMA Male to SMA Male 50cm

SKU: ACC-PT-00362

MPN: CA-P240-431SA1.50

Barcode: 9337692002687

Description

This short 50 cm jumper cable is used to interconnect two passive components that have SMA Female interfaces, such as a repeater to a surge protector or power divider.

Powertec's PTL-240 coaxial cable is a low loss RF cable with a medium-sized 6.10 mm outer diameter. This series is without a doubt the most popular choice of RF cable, due to its efficient compromise between performance and cost.

PTL-240 cable provides the flexibility and easy installation of a smaller diameter cable, with the low attenuation and shielding advantages of a larger cable. The cable is a mid-size providing a compromise between form-factor/bend radius, and attenuation/power handling. Its double shielded outer conductor provides exceptional RF shielding exceeding 90 dB, and PE jacket for a service life in excess of 20 years.
