Description

The Powertec 5W Attenuator (SKU: IBC-PT-00049) is a high-quality RF passive component, designed for applications within the 698 to 3800 MHz frequency range. It offers a consistent attenuation value of 5 dB, ensuring reliable signal reduction. The attenuator features a 4.3-10 Male to Female connector configuration, making it versatile for various installations. It boasts a low VSWR of 1.2:1, ensuring minimal signal reflection and optimal performance.

Constructed with durability in mind, this component measures 60x19.5 mm and is rated IP60 for environmental protection. It operates efficiently in temperatures ranging from -35 °C to 65 °C, making it suitable for diverse environmental conditions. The input impedance is 50 Ω , aligning with standard RF systems.

Manufactured by Powertec in Australia, the attenuator is part of the PCM-AT5-DC38.432 series. Powertec, established in 1995, is a leader in wireless technology distribution and...
