## Description

The N Male Connector for L-240 Cable, Right Angle (SKU: ACC-PT-00392) is engineered by Powertec, part number N1-C-L24, for a range of low-frequency applications like UHF, 4G LTE, and WiFi. This N-Type connector is renowned for its durability and excellent power handling capabilities.

Specifically designed for terminating LMR-240 or equivalent coaxial cables, this right-angled connector features a hexagonal coupling nut, facilitating easy tightening with a torque wrench. Installation is straightforward: after prepping the cable, the outer body is fitted over until the centre conductor aligns with the inner contact, requiring minimal soldering. The ferrule is crimped using a standard 6.5 mm hex die.

Constructed with a Brass body and Nickel plating, it features Gold-plated Brass inner contacts and a PTFE/Teflon insulator. It supports over 500 mating cycles and operates between -65 °C to 165 °C, with a frequency range up to 6.0 GHz. The...
