Description

The Telegartner 4.3-10 to 4.3-10 Jumper Cable (SKU: ACC-TG-00023, Part No: 100010294) is a high-performance RF cable designed for demanding applications in telecommunications and data communications. This 1/2" corrugated coaxial cable is ideal for integration into large antenna systems, particularly within passive Distributed Antenna Systems.

Featuring a robust solid corrugated copper outer conductor, the cable provides excellent shielding with 110 dB effectiveness and achieves low Passive Intermodulation (PIM) targets, rated at -166 dBc. The cable's connectors are both 4.3-10 Male with a straight body and free-hanging mounting style, ensuring easy and secure connections. Designed to withstand multiple mating cycles, it supports reliable performance across a wide frequency range.

The cable exhibits superior electrical performance with Return Loss measurements of ≤ 32.00 dB at 450 MHz and 900 MHz, ≤ 30.00 dB at 1800 MHz and 2100 MHz, and $\leq \dots$
