Description

The Telegartner 7-16 Straight Jack SIMFix CA-Pro is a high-performance coaxial RF connector designed for demanding telecommunications applications. Specifically engineered for 7/8" corrugated cables, this 7/16 DIN Female connector ensures reliable signal transmission in RF systems operating up to 3.0 GHz. Its robust construction utilising brass and copper alloys, with additional copper-silver and copper-nickel plating, enhances conductivity and durability. The connector's polyethylene insulator ensures high electrical insulation, optimising performance across varying conditions.

Ideal for environments requiring frequent connections and disconnections, the connector supports over 500 mating cycles. It handles peak power levels of up to 2 kW and operates efficiently within a temperature range of -40 °C to 85 °C, making it suitable for both indoor and outdoor installations. The connector's PIM rating of ≤ -155 dBc ensures minimal...
