Description

The N Male Connector for L-240 Coaxial Cable (SKU: ACC-PT-00040), part number N1-C-L24, is engineered by Powertec for reliable performance in RF applications including UHF, 3G, 4G LTE, and WiFi. Known for its durability and power handling, this N-Type connector is ideal for terminating LMR-240 or equivalent braided coaxial cables.

Featuring a straightforward installation process, the pin is soldered to the centre conductor, and the outer body is secured over it until flush. The ferrule is crimped using a standard 6.5 mm (.255") hex die. This straight body connector with a free-hanging mounting style is constructed from nickel-plated brass, with gold-plated brass inner contacts, and a PTFE insulator, ensuring robust performance.

With dimensions of 26.0 × 19.0 × 9.1 mm, it operates at frequencies from 0 GHz to 6.0 GHz, maintaining an input impedance of 50 Ω and insulation resistance of ≥ 5000 mΩ. The connector can handle RF operating...
