

SMA Male Connector for L-240 Cable, Right Angle

SKU: ACC-PT-00395

MPN: SA1-C-L24.RA

Barcode: 9337692004933

Description

SMA connectors have become the mainstay of low frequency wireless technologies.

This Right Angle SMA Male connector is designed for a standard crimp and solder attachment to LMR-240 series coaxial cables. This model has been designed for extended operation to 6 GHz.

Installation is very simple. After preparing the cable, the pin is soldered onto the centre conductor and outer body pushed over the top until the pin sits flush. A standard 6.48 mm (.255") hex die is used to crimp the ferrule.

Right angle connectors are popular for applications where installation space is in short supply. This connector type is commonly used inside communications boxes and cabinets, and for passive components mounted on backing boards.
