

ZCG LoRa Vehicle Spring Mount Antenna, 915 to 928 MHz, 6 dBi, 5m SMA Male

SKU: ACC-ZC-00064
 MPN: SGL900

Description

The ZCG LoRa Vehicle Spring Mount Antenna (SKU: ACC-ZC-00064) is a high-performance solution for RF communications, operating in the 915 to 928 MHz range. With a peak gain of 6 dBi and vertical polarisation, this collinear antenna is ideal for vehicle applications requiring reliable LoRa connectivity. Constructed from durable fibreglass, it measures 800 mm in length and weighs 0.65 kg, ensuring robust performance in various environments.

Designed by ZCG Scalar, a renowned Australian antenna manufacturer, the antenna features a single SMA Male connector with a 5m cable, facilitating straightforward integration into existing systems. The antenna supports up to 30 W of input power with a 50 Ω impedance, ensuring efficient signal transmission and reception.

This antenna is engineered to deliver a stable VSWR of less than 1.6:1 and offers a full 360° azimuth beamwidth, making it suitable for broad coverage needs. Whether for private or...
