

ComAnt Offset Pattern Collinear Antenna, 440 to 475 MHz, 8dBi, N Female

SKU: ANT-CA-00006
 MPN: CA450C2

Description

The ComAnt Offset Pattern Collinear Antenna (SKU: ANT-CA-00006) from CompleTech is designed for professional communication applications within the 440 to 475 MHz frequency range. With a peak gain of 8dBi and a VSWR of <1.5:1, it ensures reliable signal performance for UHF applications. Featuring a single N Female RF connection, it integrates seamlessly into existing systems.

Constructed from durable ABS plastic, aluminium, and beryllium copper, this antenna is built to withstand challenging environments, certified with an IP67 rating for dust and water resistance. It operates efficiently in temperatures ranging from -40 °C to 80 °C, making it suitable for diverse outdoor installations.

The antenna's vertical polarisation and wide azimuth beamwidth of 181° provide excellent coverage in various settings. Its modular design allows easy adaptation across different applications, ensuring flexibility for changing needs. CompleTech, a renowned...
