GME AE4704B 580mm Heavy Duty Fibreglass Radome Antenna, AS004B Spring (2.1dBi Gain) – Black

SKU: ANT-GM-00033

MPN: AE4704B

Description

The AE470x series is an adaptable UHF CB antenna system with a range of spring bases and user-interchangeable whips.

This allows you to quickly and easily switch between whips to suit the operating conditions and application.

The AE470x series includes a range of shorter length whips with lower gain for mountainous terrain or built-up areas, and longer length whips with higher gain for travelling on open roads or flat terrain.

The AE4704B is a popular choice for the 4WD enthusiast requiring a robust antenna for hardcore off-roading or touring.

- Black Fibreglass Radome
- Heavy Duty Spring Base
- Interchangeable Whip
- Ground Independent Design
- Pre-terminated FME Connector
- 2.1dBi Gain
- 580mm Length

GME

For more than 60 years, GME has been an industry leader in the communication technology space. GME remains a family owned operation and is proudly 100% Australian owned. GME takes immense pride in the quality of its products, they are designed to meet or exceed not only Australian but International CE, FCC and Cospas-Sarsat standards, as required.

Located in Sydney's west, GME operates from its …
