SKU: ANT-HS-00001

MPN: 1399.99.0119

Description

The Huber+Suhner 3G-4G Sencity Road Antenna, featuring 2x2 MIMO technology, is designed for high-performance communication in challenging environments. This fin/stud/combo antenna, part number 1399.99.0119, is built with durable aluminium and ASA plastic, ensuring robustness and longevity. Certified to an IP69 ingress protection rating, it withstands extreme temperatures from -40°C to 85°C, making it ideal for demanding outdoor applications such as roadside installations and transportation systems.

With two input ports, the antenna supports 2 RF connections, providing reliable connectivity across a wide frequency range of 698 MHz to 2690 MHz. It delivers impressive RF performance with peak gains of up to 6.0 dBi and maintains inter-port isolation above 12 dB, ensuring minimal interference and optimal signal clarity. The antenna's 50 Ω impedance supports power inputs up to 80 W, making it suitable for high-capacity data transmission.
