## Description

The Peplink Mobility 22G (Puma 221-S-W-6) is a high-performance antenna system designed for versatile applications in demanding environments. This 5-in-1 antenna combines two LTE/5G, two Wi-Fi, and one GPS element, making it an ideal choice for mobile connectivity solutions. Its robust construction is rated at IP68, ensuring it withstands harsh weather conditions, while the wide frequency range (617 MHz to 6000 MHz) guarantees strong signal reception across multiple bands.

The dual LTE/5G elements support high-speed mobile data transmission essential for applications such as mobile broadband in vehicles, remote monitoring systems, and public safety communications. The integrated 2x2 MIMO Wi-Fi antennas enhance wireless connectivity, making the Mobility 22G suitable for use in buses, trains, and other transport systems requiring reliable internet access for passengers.

Additionally, the built-in GPS antenna provides accurate location data...
