## Description

The Peplink Mobility 42G is a versatile 7-in-1 antenna system designed to enhance connectivity across various applications. This robust antenna is 5G ready, making it ideal for future-proofing mobile communications in public safety, transportation, and mobile healthcare sectors. It combines four LTE antennas, two Wi-Fi antennas, and one GPS antenna, enabling seamless communication over a wide frequency range. The unit operates efficiently in harsh environments, with an IP68 ingress protection rating and a durable polycarbonate construction that withstands temperatures from -40°C to 80°C.

The 42G supports 4x4 MIMO technology, which enhances data throughput and reliability, crucial for mission-critical operations. Its omni-directional design allows for consistent connectivity regardless of direction, making it suitable for mobile and stationary deployments. With a frequency range covering 617 MHz to 6000 MHz, it offers impressive peak...
