MPN: ANT-MR-10-N-W

Description

The Peplink Maritime 10 2x2 MIMO 5G Ready Cellular Antenna System with GPS is designed for robust maritime communication solutions. Featuring dual LTE/5G capability and a GPS module, this antenna covers a wide frequency range of 600-4200 MHz, ensuring comprehensive connectivity for various maritime applications. Its construction from durable polycarbonate and IP68 rating make it ideal for harsh marine environments, withstanding temperatures from -40°C to 80°C.

The antenna's 2x2 MIMO configuration enhances data throughput and reliability, crucial for stable maritime operations. It supports linear polarisation with a 50 Ω impedance, handling up to 10 W of input power efficiently. The antenna delivers a consistent peak gain of 9.3 dBi across multiple frequency bands, maintaining optimal performance and coverage with a 360° azimuth beamwidth.

Peplink's commitment to quality is evident in this product's RoHS compliance, ensuring...
